

**The World Wide Fund for Nature (WWF) Cameroon is looking for a  
Communication Intern as part of the Impact Programme for Integrated Forest  
Landscape Management in the Congo Basin (GEF 7)**

**Want to make a positive difference to the future of people and our one shared home, the Earth? Working with WWF could be your opportunity of a lifetime:**

All around the world, people are waking up to the deepening crisis of nature loss. A growing realization that nature is our life-support system. And that nobody will be spared from the impacts of its loss. Here at WWF, we are helping to tackle this enormous global challenge.

Our people come from hugely diverse backgrounds and with a variety of expertise, ranging from HR and finance to advocacy and conservation science. We welcome applications from anyone who believes they can help us create a better future for people and wildlife.

**What we do:**

We are an independent conservation organization, striving to sustain the natural world for the benefit of people and wildlife. From individuals and communities to business and government, we are part of a growing coalition calling on world leaders to set nature on the path to recovery by 2030. Together, we seek to protect and restore natural habitats, stop the mass extinction of wildlife, and make the way we produce and consume sustainable.

For our Impact Programme for Integrated Forest Landscape Management in the Congo Basin (GEF 7), we are looking for a dynamic and committed Communication Intern.

**Reports to:** GEF 7 IP Monitoring, Evaluation and Learning Specialist

**Location:** Yaounde, Cameroon

**Duration:** Six (06) months, renewable

**Mission of the Department:**

The project entitled 'Impact Programme for Integrated Forest Landscape Management in the Congo Basin - Cameroon Component', commonly known as GEF Project 7, aims to strengthen the integrated management of Cameroon's globally significant forest landscapes in the Congo Basin to ensure their biological integrity and increase economic opportunities and livelihoods for forest-dependent populations. Over a six-year period, the project addresses the main drivers and constraints of deforestation, forest degradation and biodiversity loss through an inclusive and integrated approach that aims to achieve and maintain the effective participation and empowerment of indigenous peoples and local communities (IPLCs) and strengthen their resilience. The project is being implemented across the Cameroonian segments of three transboundary landscapes: (i) the Campo Ma'an-Rio Campo landscape (769,446 ha), particularly around Campo Ma'an National Park; (ii) the Tri-National Dja-Odzala-Minkebe (TRIDOM) landscape (4,949,174 ha), and (iii) the Tri-National Sangha (TNS) landscape (1,490,552 ha), particularly in and around Lobéké National Park. This is achieved through five components, including component 5, which is: 'Monitoring and evaluation, knowledge management and regional coordination.
